NGUYỄN QUANG ĐỨC

AI & Data Analytics Expert

My Portfolio | My Dashboard

AI & Data expert with 10+ years of experience consulting on and leading enterprise data, reporting, and AI projects. Corporate trainer for banks and major organizations, speaker, and AI & Power BI community leader, bridging technology and practical business needs to drive innovation, operational efficiency, and sustainable growth.

Education

LeBow College of Business, Drexel University — Philadelphia, PA
Bachelor of Science in Business Administration — Graduation: June 2017
Majors: **Business Analytics** and **Finance** — GPA: **3.79**

Technical Skills

AI Tools: Claude Code, ChatGPT/Codex, Google Gemini/Antigravity, Hermes Agent, Grok Bot, Databricks Genie
Programming: Access, SQL Server, MySQL, SQL Server Integration Services (SSIS), Maple, R, SAS, Python
Data Analytics: Databricks, Excel (with VBA), Power BI, Tableau, ClicData, SQL Server Reporting Services (SSRS)
Office: Word, PowerPoint, Outlook, Office 365, Microsoft Flow, Salesforce, QuickBooks, Trello, Asana, WordPress

Certifications

Databricks Certified Generative AI Engineer Associate · *Link* — 05/2026 – 05/2028
Gemini Certified Educator (Level 1, 2) · *Link* — 12/2025 – 12/2028
Microsoft Certified: Data Analyst Associate · *Link* — 12/2021
Tableau Desktop Certified Associate · *Link* — 10/2019
Microsoft Certified Solutions Associate (MCSA): BI Reporting · *Link* — 09/2018

Relevant Experience

COMPA CLASS VN — Hanoi, Vietnam
CEO & Co-founder — June 2023 – Present
• Lead the development of an AI-powered e-learning platform and cross-functional product teams
• Drive product growth, market expansion, and partnerships with enterprises and educators

KPIM, JSC — Hanoi, Vietnam
Co-founder and Data Analytics Manager — July 2020 – Present
• Lead strategy for corporate data analytics consulting and training services
• Design and customize corporate training programs in Power BI, Tableau, R, and data analytics
• Research data technologies and develop workshops for the Power BI and Microsoft Fabric communities

Your Part-Time Controller, LLC — Philadelphia, USA
Data Visualization Group Manager — March 2016 – July 2020
• Researched and implemented machine learning models for QA, market research, and spatial analysis projects
• Built executive dashboards integrated with accounting systems such as QuickBooks, Intacct, and Dynamics GP
• Delivered Excel and Power BI training to 5 team members and 150 internal staff

Lazada Group — Ho Chi Minh, Vietnam
Operations Strategy and Planning Analyst — March – September 2015
• Supported the COO in developing third-party logistics allocation algorithms, reducing costs by 15%
• Analyzed MySQL data and built lead-time dashboards to manage a daily backlog of over 10,000 items
• Used text mining in R to identify misclassified products and resolve website categorization issues

NRG Northeast Retail (formerly Energy Plus) — Philadelphia, USA
Business Analyst — March – September 2014
• Performed quality assurance on data integration processes to ensure complete data delivery across departments
• Designed SSRS reports in Visual Studio to monitor SQL Server data quality and identify missing data daily
• Developed and debugged T-SQL stored procedures and SSIS packages

CORE EXPERTISE

AREA OF EXPERTISE	DETAILS
1. AI Solutions & AI Agent Implementation	• Design AI solutions spanning prompt engineering, harness engineering, and graph engineering. • Build AI agents that use tools, retrieve knowledge, and coordinate multistep tasks. • Integrate AI agents into practical workflows to automate tasks, support decisions, and improve productivity.
2. Data Management, Analytics & AI Consulting	• Apply machine learning with R and Python; develop data models using SQL and advanced Excel. • Develop real-time dashboards and KPI reporting with Power BI, Tableau, and SSRS. • Transform data using SSIS, T-SQL, and Excel VBA. • Integrate AI-enhanced workflows into business intelligence systems.
3. Power BI Architecture, Implementation & Management	• Design solutions using Power BI Desktop, the Power BI service, and Power BI Embedded. • Implement row-level security, DAX, Power Query, and dynamic visual interactions. • Integrate Excel, SQL Server, Intacct, and external APIs. • Administer Power BI, manage publishing workflows, and govern enterprise workspaces.
4. Microsoft Fabric Architecture & Data Pipelines	• Plan and implement Microsoft Fabric lakehouse architectures. • Configure Dataflows Gen2, data pipelines, and real-time analytics. • Integrate OneLake with Power BI and semantic models in Fabric. • Apply Fabric's low-code/no-code data engineering tools in practical implementations. • Align enterprise data roadmaps with Microsoft's unified data platform strategy and Fabric capabilities.
5. Database, Data Warehouse & Lakehouse Architecture	• Administer on-premises SQL Server, MySQL, and PostgreSQL databases. • Automate data flows using T-SQL, stored procedures, and SSIS packages. • Apply Microsoft Fabric architecture and data lakehouse design principles. • Manage data quality, auditing, and database migration planning.
6. ETL & Data Pipeline Development and Management	• Develop ETL processes using SSIS, Python scripts, Excel VBA, and T-SQL. • Ingest data through APIs and connectors for BI tools such as Power BI and Tableau. • Optimize data pipelines, validate data quality, and maintain audit trails. • Automate data refresh cycles in Power BI and Excel.
7. Business Analysis, Dashboard Design & UI/UX	• Design UX-focused Power BI and Tableau dashboards for executives. • Document business process flows and communicate with stakeholders. • Use Figma and Canva to support front-end product design workflows. • Develop interactive report layouts and design frameworks that prioritize clarity and accessibility.
8. Business Process Automation with Power Platform, Make & n8n	• Use Power Automate to automate workflows across Power BI and Office 365. • Use low-code tools such as Make (Integromat) and n8n to integrate and automate workflows. • Automate alerts, report distribution, and data synchronization across QuickBooks, Excel, and Salesforce. • Implement RPA-style automation within the Microsoft ecosystem.

SELECTED PROJECTS

CLIENT	PERIOD	PROJECT
PETROLIMEX PLC	4/2025 - 7/2025	Implemented a Microsoft Fabric lakehouse and data warehouse integrating accounting and inventory data from five subsidiaries; developed 12 Power BI Embedded reports.
BIM GROUP	3/2025 - 5/2025	Developed cloud-based Power BI reports for a hotel chain, with automated updates from Excel files via SharePoint.
PVI Insurance	11/2024 - 6/2025	Implemented a Microsoft Fabric lakehouse and data warehouse integrating the internal ERP (PIAS) and BRAVO accounting system to support Power BI Embedded reporting.
IPP GROUP	9/2024 - 11/2024	Built a centralized data warehouse on SQL Server and SSAS, connected to Excel and Power BI Report Server.
JEISYS MEDICAL	1/2024 - 9/2024	Developed 10 Power BI sales and inventory reports, integrating Odoo data through APIs using Microsoft Fabric.
HAFELE	3/2024 - 6/2024	Implemented 15 Power BI reports connected to Oracle data and embedded in internal systems.
TALENTNET	1/2024 - 4/2024	Developed seven reports in the Power BI service covering HR, accounting, and sales analytics.
SONION	1/2023 - 1/2025	Built a centralized data warehouse integrating two production systems across two factories in Vietnam; optimized data storage and reporting queries.
PVI AM – PVI Asset Management	3/2023 - 12/2023	Advised on and implemented a lightweight SharePoint Lists data entry solution for investment portfolio management and reporting in the Power BI service.
TÂN Á ĐẠI THÀNH	3/2023 - 6/2023	Built a reporting system connected to the existing on-premises data warehouse and deployed reports through Power BI Report Server.
TRAPHACO	11/2022 - 3/2023	Migrated reports from Qlik to Power BI and embedded the reporting system in the company's internal ERP.
POSHACO	9/2022 - 12/2022	Developed consolidated reports from ERP data extracts to automate executive reporting and analytical commentary.
CONSORTIO	2022-2023	Built Power BI reports to evaluate and compare telecommunications subscription plans.
MSB – VIETNAM MARITIME BANK	3/2022 - 6/2022	Standardized Excel data entry templates to automate management reporting updates in Power BI.
BFC	1/2022 - 6/2022	Used Power Automate to extract Oracle data and integrate APIs for consolidated Power BI reporting.

VIETTEL COMMERCE	1/2021 - 12/2021	Built an internal data warehouse with SSIS integration to consolidate data from multiple ERP systems.
PVI Insurance	6/2021 - 12/2021	Advised on and developed Power BI reports to automate the consolidation of accounting templates into unified reports.
RỒNG VIỆT	9/2021 – 12/2021	Analyzed investment portfolio and performance data; built Power BI reports connected directly to the data warehouse.
VĨNH CƯỜNG	6/2021 – 12/2021	Developed a product management system with Power BI reports for quotation analysis and pricing evaluation.
Citicom	3/2021 – 9/2021	Deployed Tableau Server and reports to support CRM-based customer management.
TAM LONG PHARMA	1/2022 - 3/2022	Advised on data entry templates and systems for production processes to provide source data for reporting.
MB Ageas Life	8/2020 - 12/2020	Developed a reporting system connected to the CRM software used by the bank.
DG TRAINING	9/2020 – 12/2020	Built a SharePoint Lists data entry and document management system to aggregate, calculate, and refresh data for reports in the Power BI service.
Additional projects are not listed here.		

CORPORATE TRAINING EXPERIENCE

SELECTED CORPORATE TRAINING PROGRAMS

- Course designer and instructor: Data Analytics Fundamentals (approximately 23 classes)
- Course designer and instructor: Power BI Basics (46 classes)
- Course designer and instructor: Advanced Power BI (12 classes)
- Course designer and instructor: Data Analysis with Excel (7 classes)
- Course designer and instructor: Basic Applications of Power Platform (5 classes)
- Course designer and instructor: Applications of Generative AI and ChatGPT (2 classes)
- Contributed to CPI Data Analytics programs for Vietnamese students in the United States (7 programs)
- Designed and delivered a tailored Data Master Program for VietinBank branches (20 classes)
- Viettel Group: Applying Generative AI and ChatGPT in Investment Management
- Hoya: Advanced Applications of Power Platform and Power BI
- NCB: Applying and Mastering Power BI for Bankers (4 classes)
- Techcombank: Data Analytics for Management with Power BI (5 classes)
- MB Bank: Basic Power BI Applications (3 classes)
- BIDV: Data Analytics and Visualization with Power BI (3 classes)
- ADCo: Power BI for Accounting Reports
- Petrolimex Gas: Power BI Skills and Reporting Applications
- VIS RATING: Power BI for Financial Market Data Analytics
- DINCO: Construction Industry Data Analysis and Reporting (5 classes)
- DENSO: Data Visualization and Analysis with Power BI (2 classes)
- VINASOY: Data Analytics Hero – Business Data Analytics (2 classes)
- Hanoi Telecom: Management Thinking and Enterprise Data Utilization
- NorthStars: Data Analytics Fundamentals
- Olmix: Data Analysis and Visualization with Power BI
- EdsoLab: Advanced Power BI and System Administration
- Agribank — 22 classes, 1,682 attendances: data analysis and reporting (10); AI in marketing (3); AI/automation for HR (3); customer behavior and segmentation (2); advanced analytics (2); HR data (1).
- VietinBank — 8 classes, 449 attendances: customer data (2); AI/automation for HR (2); sales data; data storytelling with Power BI and AI; AI for banking data; HR data.
- VNPT — 3 classes, 172 attendances: growth analytics (2); data analysis for business management (1).
- BIDV — 2 classes, 92 attendances: data analysis and visualization with Power BI.
- URC — 2 classes, 30 attendances: Power BI Basics and Advanced Power BI.
- DMVN — 2 classes, 53 attendances: Power BI Basics and Advanced Excel.
- Amkor — 1 class, 16 attendances: data analysis with Power BI.
- DINCO — 1 class, 14 attendances: Power BI Basics.

RESEARCH PAPERS & CONFERENCE SUBMISSIONS

2026 RESEARCH PAPERS

- National conference submission: “Applying Artificial Intelligence to Curriculum Innovation, Teaching Methods, and Workforce Development in the Social Sciences: A Three-Axis Integration Framework and Policy Implications for Vietnam” — co-authored with Associate Professor Nguyễn Thị Thu Hằng, PhD; submitted on July 27, 2026, to the conference “Applications of Artificial Intelligence in the Social Sciences.” Acceptance for proceedings or publication has not been verified.
- International conference submission: “The 3C Triangle in Digital Transformation in Education: Policy, Technology, and People Must Advance Together” — co-authored with Associate Professor Nguyễn Thị Thu Hằng, PhD; revised manuscript submitted on August 30, 2026, following review QT 68 for the National Academy of Education Management conference on October 2, 2026. Acceptance for proceedings or publication has not been verified. Conference details
